SECTION II – INFORMATION TO SERVICE PROVIDER (ITC)

1. Introduction

1.1. The Medical superintendent, MC layout multispecialty Hospital (Agrahara Dasarahalli General Hospital) invites Proposals through Karnataka Public Procurement portal (two cover system), **FOR PROVIDING MEDICAL LABORATORY SERVICES TO MC LAYOUT HOSPITAL ON OUTSOURCED BASIS, BY INTERESTED NABL ACCREDITED LABS**, for a period of 05 years which may be extended by another 5 years based on satisfactory performance and as per the BBMP Estate management rules 2024. The RFP is open to all service providers who meets the eligibility criteria.

1.2. The Service Provider must familiarize themselves with local conditions and take them into account in preparing their Proposals. To obtain first-hand information on the Assignment and on the local conditions, Service Provider are encouraged to pay a visit to the location before submitting a Proposal, and to attend a pre-proposal conference as per the RFP schedule. Attending the pre-proposal conference is optional.

1.3. Please note that the costs of preparing the proposal and of negotiating the contract, including a visit to the Client, are not reimbursable as a direct cost of the Assignment; and the Client is not bound to accept any of the Proposals submitted.

1.4. It is GOK's policy to require that Service Provider observe the highest standard of ethics during the execution of such contracts. In pursuance of this policy, the GOK:

1.4.1. defines, for the purposes of this provision, the terms set forth below as follows:

1.4.1.1. "corrupt practice" means the offering, giving, receiving, or soliciting of anything of value to influence the action of a public official in the selection process or in contract execution; and

1.4.1.2. "fraudulent practice" means a misrepresentation of facts in order to influence a selection process or the execution of a contract to the detriment of GOK, and includes collusive practices among Service Provider (prior to or after submission of proposals) designed to establish prices at artificial, noncompetitive levels and to deprive GOK of the benefits of free and open competition.

1.4.2. will reject a proposal for award if it determines that the firm recommended for award has engaged in corrupt or fraudulent activities in competing for the contract in question;

1.4.3. will declare a firm ineligible, either indefinitely or for a stated period of time, to be awarded GOK-financed contract if it at any time determines that the firm has engaged in corrupt or fraudulent practices in competing for, or in executing, a GOK-financed contract; and

1.4.4. will have the right to require that, GOK to inspect Service Provider's accounts and records relating to the performance of the contract and to have them audited by auditors appointed by GOK.

1.5. Service Provider shall not be under a declaration of ineligibility for corrupt and fraudulent practices issued by GOK in accordance with the above para.

1.6. The Service Provider shall be aware of the provisions on fraud and corruption stated in the standard contract under the clauses indicated above and GCC.

1.7. Earnest Money deposit or Bid security

- **IT-Enabled Solutions: LIS / Mobile Application / Dash board**

  SERVICE PROVIDER's services and transactional data has to be managed and strengthened with strong Hospital Management Information System with Real-time data analytic dashboards. Right from the patient registration till report dispatch and quality control, the process flow happens through LMIS. Should have Mobile application which enable the user to register a patient, mark attendance and track down the user using GPS etc. Those inputs taken through mobile application will be directly synced with local servers of labs where the user is mapped and synced with the central server for web enabled access.

  The sample acceptance of each patient is happening at sample collection area. All the high-end Bio-medical equipment are Bi-directional / Uni-directional interfaced with Lab Software which fetch back both patient data and result bi-directionally in case if the machine is interfaced bi directionally. After the result entry, the next step is result validation, it will be done by senior lab technician/Pathologist/Lab Director. The validated results are authenticated by pathologist using digital signature. Once the reports are authenticated, the results are auto-emailed to the patients/Doctors/Facilities along with a SMS indication to the registered client mobile number.

  All the reports are uploaded to the server every 15 minutes and the same shall be available for download to the customer through facility or citizen portal. The patients/ facilities/doctors can view/download the reports using user credentials.

  Should have local server in lab where the data is stored in database real time. Using a third party back up tool the back-up data should be transferred to a client PC available in LAN. In addition to this all-local server data should sync to a central server. The real time dashboard should be hosted in this central server.
